Super Cereal Plus (SCP) commodity requirements document can be found at:

<http://www.fsa.usda.gov/Assets/USDA-FSA-Public/usdfiles/Comm-Operations/pdf/scp1.pdf>

The following requirements are in addition to the SCP1 CRD and are specific to this invitation:

1. Part 1, D. Regarding Super Cereal Plus formula, the 58.17 percent cornmeal should be derived from de-hulled white or yellow corn as indicated in Part 1, B of Super Cereal Plus CRD.

2. Start-up Run. This is a preparatory run in which the supplier develops baseline data on composition, microbiology, operator training, grading table (sensory analysis) and all calibrations necessary before running at full capacity. This would avoid massive production during the fine-tuning of the system. During this trial-type run, the supplier must run all the analyticals required in the CRD and ensure that the facility is capable of producing the product. At the beginning of this phase, FGIS must be present to conduct a sanitation inspection of the production facility and provide guidance on statistical sampling procedures. Offerors must factor the cost of this visit into their bid price. Additionally, suppliers not currently conducting business with FGIS will have to establish an account through the Animal and Plant Health Inspection Service (APHIS) or prepay for all services. Contact information for FGIS personnel is as follows:

USDA, GIPSA, FGIS
10383 N. Ambassador Drive
Kansas City, MO 64153
Phone: 816-659-8400 Fax: 816-872-1258
Ron Metz: Ronald.g.metz@usda.gov
Jeffrey R. L'Heureux: Jeffrey.r.lheureux@usda.gov

Also during this phase, the purchaser (any or multiple representatives of USDA/FGIS, USAID and/or WFP) may choose to be present. If the purchaser does not attend during the start-up phase, data generated during this phase shall be shared with the purchaser. The data will include inspection certificates from an independent laboratory facility like FGIS or a lab mutually agreeable to FSA and USAID for the testing required in tables 3 and 4 of SCP1. A start-up run is not necessary when the supplier has produced the same product, in the same facility, within the previous three months, as microbiology and production baseline data should have been already developed. Product resulting from start-up may or may not be for delivery under the contract, depending on the level of defects, quality assurance compliance, and presence of on-site FGIS inspection personnel. Decision on acceptability of start-up product will be made by the contracting officer, using inputs from USAID, USDA and the vendor. Full production may continue if start-up initial assessment indicates that adequate process/packaging and food safety capability exists to comply with product specifications.

3. Production Phase. During production of Super Cereal Plus, continuous on-site presence of FGIS inspectors is not required. However, purchasers will continue monitoring food safety and quality through micronutrient and microbiology indicators. FGIS and the supplier shall agree on a sampling plan. Supplier will perform the sampling and ship samples to Kansas City FGIS lab. Samples will be done in a per-lot-basis, defining a lot as a day of production or 110 metric tons, whichever is achieved first.

4. Quality and Food Safety Monitoring Parameters. For Super Cereal Plus production, the key micronutrients to be monitored through independent third party testing on a per-lot basis are Vitamin A and Iron for micronutrient stability, and Coliform and Salmonella for microbiological compliance. Supplier is expected to perform all other analytical requirements indicated in Table 4, internally, on a lot by lot basis and provide CoAs for these requirements. Annually, however, the USG can require comprehensive, independent third-party testing as indicated in tables 3 and 4 of SCP1. It is also expected that the supplier will apply a continuous environmental monitoring program (PEM), based on appropriate and validated HACCP and zoning programs. Any third party testing should be done through FGIS' lab or an agreed upon ISO17025-certified lab. For microbiology, the following sampling and methods shall be used:

Microbiological Coliforms (cfu/g) Test:

IC/SU = I/25; n = 1; c = 0; m = 10; M = 10; /Unit = /g; Method = AOAC 2005.03

Microbiological Salmonella (cfu/25g) Test:

IC/SU = C/25; n = 10; c = 0; m = 0; M = 0; /Unit = /250g; Method = AACC 42-25B

5. Section 2.2 Containers and Materials: In addition to what is established in the SCP1 CRD, primary packaging (bags) and shipping containers (cases) should be of adequate strength for export handling practices and stacking up to three (3) meters high. Primary packaging should be resilient enough to withstand a load of 10 bags per box. There shall be no zipper in primary packaging, as there is no data indicating necessity or benefits in the field of a re-sealable 1.5 kg bag. Bags should be placed into cases in such a manner as to ensure bag-to-bag contact does not cause packaging and/or packing defects. Shipping containers shall be robust enough to resist typical handling, transportation and stacking. If necessary, vendors are allowed to re-enforce boxes by either strengthening the carton corners or by inserting a plastic liner or both. If by loading 10, 1.5kg-bags in a carton, expansion of secondary packaging is necessary, vendor should agree with purchaser for adequate modifications which would not impact the quality of product or the handling of same. Primary packaging shall not have any other branding other than government branding.

6. Table 4, number 12, Iron. The acceptable range is 8 - 21 mg/100g.

7. Potassium requirements: The 140 mg of potassium per 100 grams of product indicated in Table 2 of CRD is meant to serve as reference in the premix preparation. This level of potassium from the premix is expected in the finished product. However, understanding that there might be intrinsic potassium in the raw components of the products, and mindful that there might be variation in the order of 40-60% throughout the food chain, for analytical purpose (Table 4) it will be allowed an upper limit of 1499 mg of total potassium (including intrinsic content) per 100 grams of finished product, of which at least 140 mg must come from pre-mix source. If required by purchaser, supplier shall share data regarding potassium levels from the premix source in total potassium in finished product.

8. Table 4, number 15, total aflatoxin is 5 ppb.

Milled Rice - 70 MT
 Beans, Pinto - 70 MT

HUBZONE SET ASIDE:

Vegetable Oil - 430 MT

NOTICE OF SMALL BUSINESS SET ASIDE:

If specified in the solicitation, certain quantities are set aside exclusively for small business firms under the Small Business Act (15 U.S.C. 631, et seq.). Farmer-owned cooperatives, qualified as large under applicable SBA rules, are also eligible for award of set-aside quantities as provided in 7 U.S.C. 2209f.

If a large farmer-owned cooperative is awarded quantities under a small business set-aside, it shall perform the contract or cause the contract to be performed in accordance with the obligations of a business concern eligible for the small business set-aside.

Bids received for these set-aside quantities from firms who are not small business concerns will not be considered. In the event the Government is unsuccessful in contracting with an eligible small business concern(s) for the set-aside quantities, it may award the quantities to other than small business concerns.

Small businesses that wish to bid on both the set-aside and the non-set-aside quantities shall limit their minimum quantity to the set-aside quantity. Failure to comply with this requirement may cause the entire bid to be considered non-responsive.

NOTICE OF 8(a) ACQUISITION:

If specified in the solicitation, the Government may reserve a portion of the requirements for 8(a) firms certified by the Small Business Administration in accordance with the Federal Acquisition Regulation (FAR), Part 19. Farmer-owned cooperatives are also eligible for award of set-aside quantities as provided in 7 U.S.C. 2209f. The Government may increase the reserve to adjust quantities to carlot increments in the event of multiple awards to eligible 8(a) firms. The Government shall offer for award to each 8(a) firm the lesser of: 1) their quantity bid of each targeted commodity, or 2) their proportional share of each targeted commodity, if the total quantities bid by all eligible 8(a) firms exceeds the amount of each targeted commodity. In no event shall the Government offer for award an amount in excess of an eligible 8(a) firm's maximum quantity, if so established by the Government. If the 8(a) smallbusiness firm is a nonmanufacturer, it shall meet the definition and requirements outlined in FAR Part 1. In the event the Government is unsuccessful in contracting with an eligible 8(a) firm for the reserve quantity, it may award the quantities to other than 8(a) firms.

NOTICE OF HUBZONE SET ASIDE:

The Government shall set aside 10% of the quantity of vegetable oil exclusively for bidding by eligible HUBZone firms. In the event the Government is unsuccessful in contracting with an eligible HUBZone firm, it may award the quantities to other firms.

NOTICE OF SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS SET-ASIDE:

If specified in the solicitation, the Government may reserve a portion of the requirements for Service-Disabled Veteran-Owned firms certified by the Small Business Administration in accordance with the Federal Acquisition Regulation (FAR), Part 19. Farmer-owned cooperatives are also eligible for award of set-aside quantities as provided in 7 U.S.C. 2209f. The Government shall offer for award to each Service-Disabled Veteran-Owned firm the lesser of: 1) their quantity bid of each targeted commodity, or 2) their proportional share of each targeted commodity, if the total quantities bid by all eligible Service-Disabled Veteran-Owned firms exceeds the amount of each targeted commodity. In no event shall the Government offer for award an amount in excess of an eligible Service-Disabled Veteran-Owned firm's maximum quantity, if so established by the Government. If the Service-Disabled Veteran-Owned small business firm is a nonmanufacturer, it shall meet the definition and requirements outlined in FAR Part 19. In the event the Government is unsuccessful in contracting with an eligible Service-Disabled Veteran-Owned firm for the set-aside quantity, it may award the quantities to other than Service-Disabled Veteran-Owned firms.

JAVITS, WAGNER, O'DAY ACT (AbilityOne)(41 U.S.C. 46-48c)

2,020 MT of Super Cereal Plus (30% of the quantity shown under the Schedule of Supplies) is reserved for mandatory procurement from the Government's approved AbilityOne participating non profit agency in accordance with the Javits, Wagner, O'Day Act (41 U.S.C. 46-48C) and FAR Subpart 8.7. In the event the Government does not award the full reserved quantity to the AbilityOne participating agency, the Government may award the balance under full and open competition.

9. Shipment/Delivery Schedule:

Shipping periods for all commodities, except PL6 and DEB7, or where otherwise specified under bid invitation item details, are as follows:

Shipping periods for inland plants:

March 16 to March 31, 2018 and/or
 April 1 to April 15, 2018

Shipping periods for plants located at port:

April 1 to April 15, 2018 and/or
 April 16 to April 30, 2018

Shipping periods, for PL6 and DEB7 only, are as follows:

Shipping period for inland plants:

March 1 to March 22, 2018

Shipping period for plants located at the port:

March 23 to April 13, 2018

For plants located as f.a.s. vessel delivery locations:

The shipping period(s) for plants located at port shall apply only to contracts that are processed and/or bagged within the same port to which delivery will be made. If the port has multiple berths and/or terminals, the vendor shall be liable for delivering the commodity to whichever berths and/or terminals have been designated by the steamship line within that port. If the commodity is processed and/or bagged at one port for delivery to a different port, the shipping period(s) for inland plants shall apply. The Government shall issue shipping instructions (WBSCM "Purchase Orders") (PO) at least seven (7) calendar days prior to the first day of each period of performance scheduled in the contract. (See MSCP Part 3, Section A.8.) If shipping instructions are issued less than seven (7) calendar days prior to the first day of the contracted period of performance, the performance period shall be extended by the number of days the PO is issued late. The Contractor shall not be entitled to any extension of the performance period unless it furnishes evidence satisfactory to the Government that it was prepared to perform during the contracted period of performance.

10. Other Requirements:

When empty packaging is required:

The contractor shall ship the empty bags/boxes in the conveyance with the commodity. The contractor shall ensure that the empty bags/boxes are bundled securely and loaded into the conveyance so as to minimize damage and/or shortage to the packaging. There shall be no empty packaging shipped loosely on the floor of the conveyance. The contractor shall include the piece count of the empty bags/boxes on the bill of lading. The contractor shall include the piece count of the empty bags/boxes in the comments field when creating the Advance Shipment Notification (ASN) for the commodity within WBSCM.

Commodity requirements are available at:

<https://www.fsa.usda.gov/programs-and-services/commodity-operations/procurement-and-sales/export/commodity-requirements/index>

For commodity requirement KCBG10:

The contractor shall arrange for each lot of grain covered by an official domestic weight and grade certificate to be identity preserved when placed f.a.s.

11. Contract Closeout and Contractor Past Performance Evaluation:

Closeout Reporting.

Contractors shall fully complete and return all documents relating to contract completion and contract closeout. Completion and return of the aforementioned documents may be reported as part of vendor past performance evaluation.

Past Performance Evaluation.

The Government will prepare a past performance evaluation at the time the work under this contract is completed. Evaluation will rate performance areas such as quality of product or service, cost control, timeliness of performance, business relations, and when applicable, performance against, and efforts to achieve the goals identified in the small business subcontracting plan. Contractors will have an opportunity to comment on the Government evaluation. The past performance evaluation may be used by the Government to support a future award decision. Details on access and the use of contractor performance assessment reporting system will be provided at a future date.

12. FAR and Agriculture Acquisition Regulation (AGAR) Provisions and Clauses:

- A. This solicitation shall be subject to the terms and conditions of KCCO's Master Solicitation for Commodity Procurements (MSCP) in effect as of the date of this solicitation and can be found at:

https://www.fsa.usda.gov/Internet/FSA_File/master_solicitation.pdf

The FAR and AGAR provisions and clauses applicable to this

solicitation are contained in the MSCP.

- B. // Applicable if checked. FAR Clause 52.232-18, Availability of Funds (Apr 1984). Funds are not presently available for this contract. The Government's obligation under this contract is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are made available to the contracting officer for this contract and until the contractor receives notice of such availability, to be confirmed in writing by the contracting officer.

13. Unique Commodity Specifications Required for this Solicitation:

For Commodity Requirements Document CM6, CSB13, CSBP2, ICSB1, and SFCM4 the following is applicable:

In addition to any maximum contaminant requirement established in the commodity specification, the Government is requiring compliance for maximum Deoxynivalenol (DON) levels of 1 mg/kg (on a dry matter basis) using a validated HPLC analytical method for mycotoxin such as AOAC 986.17 or EN 15891:2010; or any other equivalent validated effective method.

For Commodity Requirements Documents SCP the following is applicable:

In addition to any maximum contaminant requirement established in the commodity specification, the Government is requiring compliance for maximum Deoxynivalenol (DON) levels of 0.2 mg/kg (on a dry matter basis) using a validated HPLC analytical method for mycotoxin such as AOAC 986.17 or EN 15891:2010; or any other equivalent validated effective method.

For Commodity Requirements Documents CM, CSB, CSBP, CSM, SFCM, SFSG, WSB, and WSM using multiwall paper bags or high performance multiwall paper bags only--commodity contractors may either use preprinted bags or utilize an online ink-jet printer to print the contract number, manufacturer's lot code, month of manufacture (if required), and best-used-by date (if required). If ink-jet printing is used, the information shall be no smaller than one-half inch, printed near the top of either one or both sides of the bag, and shall not overlap any other bag markings. The ink-jet ink shall be Universe black (75) oblique.

For Commodity Requirements Document SFCM4, Part 1, Section 1.1B, Vitamin A requirements in the finished product (i.e. including intrinsic and premix conditions) are deleted and replaced with:

Vitamin A - Minimum: 1662 IU/lb - Maximum: No max.

For Commodity Requirements Document WSB15, Part 1, Section 1.2, Ingredient Specifications G(2) table requirements are deleted and replaced with:

The deleted sections are replaced with the following language:

Section 1.2 Quality Assurance -

A. This contract provides for Government quality assurance at source. The Government shall weigh, sample, inspect, and test the product offered in performance of the contract. The Government shall pay for the sampling and testing.

1. Sampling and testing will be performed by employees of the Department of Agriculture or contracted personnel under the direction or supervision of Government personnel. The results of Government testing shall be issued on an official Federal Grain Inspection Service (FGIS) Commodity Inspection Certificate. A FGIS Commodity Inspection Certificate is required for invoice payment pursuant to the Invoicing Requirements clause of the contract.

2. Contractors shall provide advance notification to the appropriate FGIS field office of the scheduled production for all lots provided under the contract. The advance notification shall be sent between two and seven workdays, inclusive, prior to the start of production.

3. The Government will determine the average net weight of the filled containers in each production lot and the net weight of the total lot in accordance with established FGIS procedures for packaged commodities.

4. The Government will verify that the packaged commodity meets the U.S. Standards for the Condition of Food Containers.

5. Any re-test or appeal requested by a contractor shall be at the contractor's expense. The Contractor shall submit requests for re-test or appeal in writing to both the Contracting Officer's Technical Representative and the Contracting Officer listed on the contract award notification by e-mail or otherwise in writing.

6. The Contractor shall provide the results of any re-test or appeal to the Contracting Officer.

7. All test results outside of the specification ranges or will constitute non-conforming product.

B. The USDA sampling and testing quality assurance program is based on a lot size of two railcars (approximately 140 MT); to the maximum extent possible. Suppliers shall plan continuous production runs in two railcar increments to avoid additional sampling and testing expenses to the Government.
